Abstract

Hungerfordia Beddome, 1889 is a terrestrial caenogastropod genus of the family Diplommatinidae endemic to the Palau (Belau) islands. *Hungerfordia* is radiated within the Palau islands and exhibits substantial morphological diversity. In this paper, the taxonomy of *Hungerfordia* species with low axial ribs is revised. *Hungerfordia polymorpha* (Crosse, 1866), *H. inflatula* (Crosse, 1866), *H. crassilabris crassilabris* (Beddome, 1889), *H. lutea lutea* (Beddome, 1889), *H. ringens ringens* (Crosse, 1866), *H. pyramis pyramis* (Crosse, 1866), and *H. aurea* (Beddome, 1889) are redescribed based on the syntypes and newly collected materials. The following new taxa are described: *H. aspera* **sp. nov.**, *H. basodonta* **sp. nov.**, *H. microbasodonta* **sp. nov.**, *H. rudicostata* **sp. nov.**, *H. unisulcata* **sp. nov.**, *H. longissima* **sp. nov.**, *H. eurystoma* **sp. nov.**, *H. crenata* **sp. nov.**, *H. crassilabris tridentata* **subsp. nov.**, *H. crassilabris attenuata* **subsp. nov.**, *H. lutea hemilaevis* **subsp. nov.**, *H. loxodonta* **sp. nov.**, *H. omphaloptyx* **sp. nov.**, *H. robiginosa* **sp. nov.**, *H. angaurensis* **sp. nov.**, *H. ringens rotundata* **subsp. nov.**, *H. ringens ventrinodus* **subsp. nov.**, *H. pyramis pteroma* **subsp. nov.**, *H. spinoscapula* **sp. nov.**
