These special publications, below, present overviews of and papers presented during our triennial international symposia on aquatic oligochaete biology. Three similar names for our symposia have been used since we began as a group in 1979: International Symposium on Aquatic Oligochaete Biology (ISAOB), International Symposium on Aquatic Oligochaetes (ISAO), and International Symposium on Aquatic Oligochaeta (ISAO).

The proceedings of the first symposium were published in a hard-bound book (Brinkhurst and Cook 1980). The proceedings of the second through ninth symposia were published as part of the regular volume series of the journal, *Hydrobiologia*, and were also reprinted and bound for symposium participants (and the scientific community) in a regular series entitled *Developments in Hydrobiology*. The proceedings of the 10<sup>th</sup> symposium were published in a supplement to volume 31 of the journal, *Acta Hydrobiologica Sinica*; the proceedings of the 11<sup>th</sup> symposium were published in the *Turkish Journal of Zoology*; the proceedings of the 12<sup>th</sup> and 14<sup>th</sup> symposia were published in *Zoosymposia*; the proceedings of the 13<sup>th</sup> symposium were published in a special volume of the journal, *Biologia*, and the proceedings of the 15<sup>th</sup> symposium are presented in this current volume of *Zoosymposia*.

Most of these proceedings include a forward or preface summarizing symposium hosts and venues, scope, chaired sessions, and other activities (e.g., mid- and post-symposium tours); recognize members of the planning, scientific, and editorial committees, and countries represented by participants; present memoria for colleagues who recently passed away; and highlight unique aspects of each symposium. A group photograph of participants, and a list of participants and their professional affiliations are included in each of these proceedings. Gelder and Peterson (1999) contributed a summary with group photographs for the second through seventh ISAO symposia. Annotated, pictorial histories of our triennial symposia have been presented during the opening sessions of the more recent symposia (2006–).

## Acknowledgements

On behalf of all ISAO participants (1979–) I extend our appreciation to past symposium hosts, host venues, and sponsors, to the citizens and their unique cultures in each of the cities and countries where our triennial symposia have convened, and to the referees and editors of the symposium proceedings listed above.
