Eitschberger, Danner & Surholt (1998: 127) described the subgenus *Jilinga* in *Hemaris* Dalman, 1816 (Lepidoptera: Sphingidae: Macroglossinae: Dilophonotini) with *Hemaris staudingeri* Leech, 1890 as its type species. The name *Jilinga* is preoccupied by Ghauri (1974: 51), who described a leafhopper genus *Jilinga* with type species *Deltocephalus darjilingensis* Distant, 1918, in the subfamily Deltocephalinae (Hemiptera: Cicadellidae). Therefore, *Jilinga* Eitschberger, Danner & Surholt, 1998 is a junior homonym of *Jilinga* Ghauri, 1974, per the ICZN (1999), and I hereby propose *Neojilinga* **nom. nov.** as the replacement name for *Jilinga* Eitschberger, Danner & Surholt, 1998. The new combination for the included species is *Hemaris (Neojilinga) staudingeri* (Leech, 1890).
