**ALLEN L. NORRBOM & LILIA ESTELA NEDER (2014) New neotropical species of *Trupanea* (Diptera: Tephritidae) with unusual wing patterns. *Zootaxa*, 3821(4): 443–456.**

In the Material and methods section, in the list of institutions the authors inadvertently omitted "MNKM—Museo de Historia Natural Noel Kempff Mercado, Santa Cruz, Bolivia". It is the depository for the holotype of *Trupanea polita* Norrbom & Neder for which the Type data are provided on page 454.
