SILVIO FELIPE BARBOSA LIMA & CARMEN REGINA PARISOTTO GUIMARÃES (2015) New bathyal *Anachis* (Neogastropoda: Buccinoidea: Columbellidae) from the Southwestern Atlantic, and the designation of a lectotype for *A. stricta* (Watson, 1882). *Zootaxa*, 3949(3): 445–450.

The lectotype specimen number provided was incorrect for *Anachis stricta* (Watson, 1882). The correction here of the specimen number does not affect the nomenclatural status of the species, of which the lectotype is clearly identifiable from its shell morphology, collection location and figure as presented by Lima & Guimarães (2015: 449, fig. 2B).

The lectotype and paralectotype numbers for *Anachis stricta* are corrected here: lectotype (NHMUK 1887.2.9.824) and paralectotype (NHMUK 1887.2.9.825).
