WILLIAM F. SMITH-VANIZ (2017) A new species of the fangblenny *Adelotremus* from Indonesia, with supplemental description of *A. leptus* (Teleostei: Blenniidae: Nemophini). *Zootaxa*, 4258: 179–186.

The acronym (MZB) for Museum Zoologicum, Bogoriense, Cibinong, Java, was given incorrectly. The correct catalog numbers for the holotype and one of the paratypes of *Adelotremus deloachi* should be MZB 23004 and MZB 23208.
