OLAVI KURINA, HEIKKI HIPPA & DALTON DE SOUZA AMORIM (2018) A contribution to the systematics of the genus *Manota* Williston (Diptera: Mycetophilidae) in Brazil. *Zootaxa*, 4472: 001–059.

In our recent paper on *Manota* Williston in Brazil (Kurina *et al.* 2018), two errors were detected and they must be corrected as follows:

- 1) the specific epithet of the new species described on p. 24, *Manota oliveirai* **sp. n.**, was grammatically incorrectly rendered and must be emended to *Manota oliveirae* **sp. n.**
- 2) the specific epithet of the new species described on p. 43, *Manota silvai* **sp. n.**, was grammatically incorrectly rendered and must be emended to *Manota silvae* **sp. n.**

Both amendments base on the rules in the International Code of Zoological Nomenclature: Articles 31.1 and 32.5 (ICZN 1999).
