

Addendum to *Zootaxa* 4612 (3): On some new and old soft scale insects (Hemiptera: Coccoomorpha: Coccidae) from Africa, with description of a new *Coccus* species and introduction of a new genus by B. Łagowska and Chris J. Hodgson

BOŻENA ŁAGOWSKA¹ & CHRIS J. HODGSON²

¹Department of Entomology, University of Life Sciences in Lublin, ul. Leszczyńskiego 7, 20–069 Lublin, Poland. E-mail: bozena.lagowska@up.lublin.pl

²Department of Biodiversity and Biological Systematics, The National Museum of Wales, Cardiff, CF10 3NP, UK. E-mail: hodgsoncj@cardiff.ac.uk

Due to an oversight, the depositories of the new species, *Coccus giliomeei* Łagowska & Hodgson, and of the new material of *Coccus rhodesiensis* (Hall) collected in the Transvaal, South Africa, was omitted from the manuscript. Both lots of slides will be deposited in SANC, The South African National Collection of Insects, Pretoria, South Africa.
