NING LABBISH CHAO, ALFREDO CARVALHO-FILHO & JONAS DE ANDRADE SANTOS
(2021) Five new species of Western Atlantic stardrums, *Stellifer* (Perciformes: Sciaenidae) with a key to Atlantic *Stellifer* species. *Zootaxa*, 4991: 434–466.

On page 461, section “16b” should be as follows:

16b. Head squamation cycloid only in interorbital region; total gill rakers 28–37..... *S. collettei* new species
(Southeast Venezuela, Surinam, French Guyana to Southeastern Brazil)

Additionally, it was noted that some registration numbers: ZUEC 147671, 147672, and 147673 (paratypes) were wrongly assigned on page 454 and should be: ZUEC 14671, 14672, and 14673, respectively.
