MAHMUT KABALAK, ÇAĞAŞAN KARACAOĞLU, HAYRİYE AKEL BİLGİÇ, DILARA KARAGUZEL & ÇAĞATAY KARAASLAN (2022) Comparisons of two cryptic *Ampedus* species (Coleoptera: Elateridae) by using classical systematics, ecological niche modeling, and DNA barcoding. *Zootaxa*, 5154 (4): 454–468.

Page 2: Figure 1E should be replaced with correct figure of *Ampedus pomonae* given below.

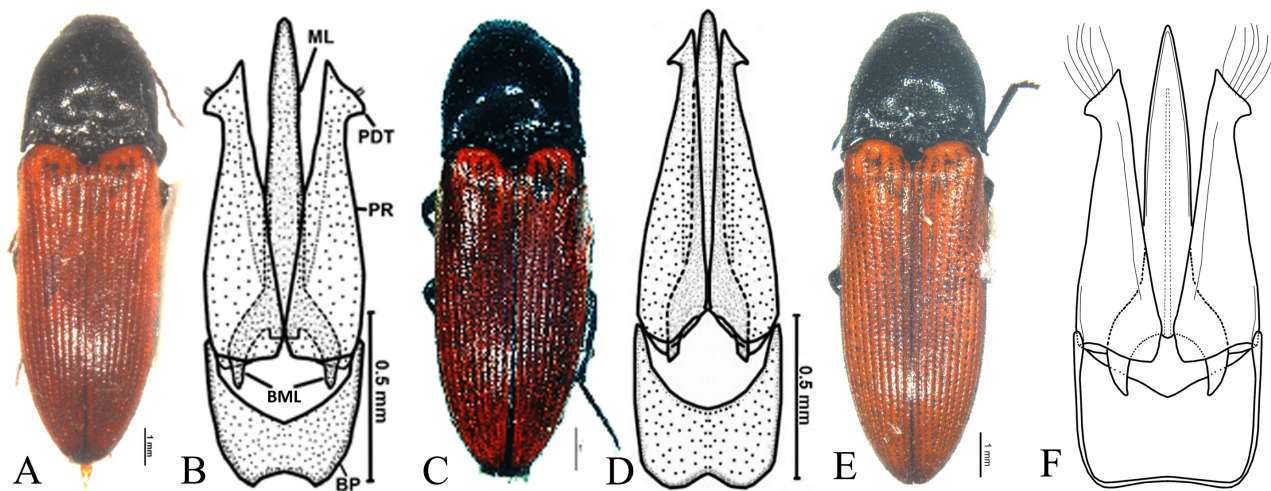

FIGURE 1. Habitus photos and aedeagi drawings of examined species. **A-B.** *Ampedus platiai*, **C-D.** *A. samedovi*, **E-F.** *A. pomonae* (Aedeagi of *A. platiai* and *A. samedovi* are redrawn from Kabalak 2010 and aedeagus of *A. pomonae* is redrawn from Platia 1994.). BML: Basal struts of median lobe, BP: Basal piece, ML: Median Lobe, PDT: Paramere distal tooth, PR: Paramere.
