

PING WANG (王平), GUANGLIN XIE (谢广林) & WENKAI WANG (王文凯) (2022) Description of a new species of the genus *Anoplophora* Hope, 1839 (Coleoptera: Cerambycidae, Lamiinae). *Zootaxa*, 5195 (1): 97–100.

In our recent paper (Wang *et al.*, 2022), we described a new species, *Anoplophora rugicollis* Wang, Xie & Wang, 2022 from Yunnan, China and Lào Cai, Vietnam, without having its deposition indicated. This does not satisfy Article 16.4.2 of the International Code of Zoological Nomenclature (International Code of Zoological Nomenclature 1999). Now, we rectify this mistake by indicating type deposition of the new species as follows:

***Anoplophora rugicollis* Wang, Xie & Wang, 2022**

zoobank.org/urn:lsid:zoobank.org:pub:6C9E92BC-A807-4978-8C01-FDF6E4B91463

Anoplophora rugicollis Wang, Xie & Wang, 2022: 97, figs. 1–10.

Description and Type Material. See Wang, Xie & Wang (2022). Holotype and paratype are all deposited in the Entomological Museum, Yangtze University, Jingzhou, Hubei, China (YZU).
