

## HIVA NASSERZADEH, GIUSEPPE PLATIA & SAYEH SERRI (2023) Click beetles (Coleoptera: Elateridae) of Khuzestan province (Iran): with three new species, *Craspedostethus izehensis* sp.n., *Dicronychus khuzestanicus* sp. n. and *Gurjevelater catei* sp. n.

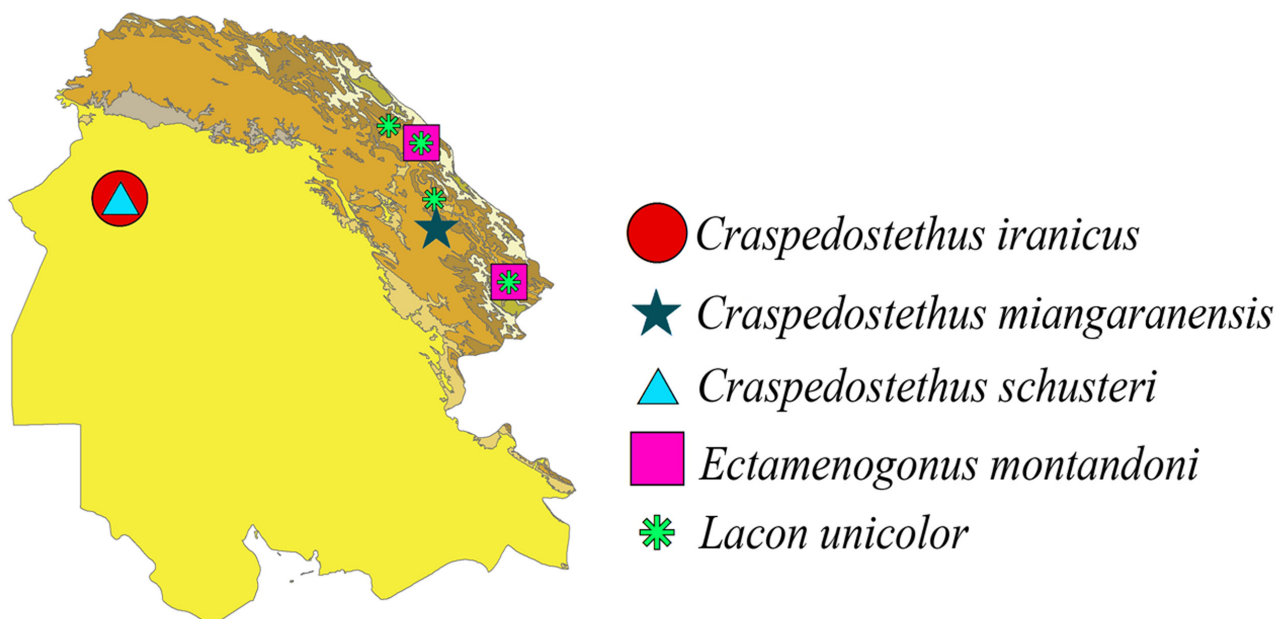

Unfortunately a few errors were introduced in the scientific names of two species in “Title”, “Abstract” and MAP 4 that need to be corrected. The incorrect species name, *Craspedostethus izehensis* sp.n., must be changed to *C. miangaranensis* sp. n. in the “Title” and “Abstract” sections. The incorrect species name, *Dicronychus khuzestanicus* sp. n., must be changed to *Dicronychus izehensis* sp. n. in the “Title” and “Abstract” sections. The incorrect species name, *Craspedostethus miangaranicus*, must be changed to *Craspedostethus miangaranensis* in Map 4.

### CORRECTED SECTIONS:

## Click beetles (Coleoptera: Elateridae) of Khuzestan province (Iran): with three new species, *Craspedostethus miangaranensis* sp.n., *Dicronychus izehensis* sp. n. and *Gurjevelater catei* sp. n.

### Abstract

More than 730 specimens of Elateridae were collected in Khuzestan province. Thirty three species belonging to 17 genera and five subfamilies are listed. Three new species, *Craspedostethus miangaranensis* sp.n., *Dicronychus izehensis* sp. n., *Gurjevelater catei* sp. n. are described, along with the female of *Aeoloides iranicus* Platia & Gudenzi, 2002. *Dicronychus houschkai* Platia, 2011 is recorded as a new species to Iran. A distributional map and climate data for each species, along with photographs of habitus and genitalia of eight species are presented.

MAP 4. Distribution map of *Craspedostethus*, *Ectamenogonus* and *Lacon* species in Khuzestan.
