

Donald Alexander Bankier MacFarlan (2023) Otapirian (Rhaetian) Terebratulida (Brachiopoda) of Zealandia. *Zootaxa*, 5374 (1): 1–34.

In the published paper (MacFarlan 2023), parts of two lines in Table 5 were omitted, and Fossil Record Numbers were incorrect. This had the effect of wrongly indicating the holotype and omitting its dimensions. All other references to the holotype are correct.

A corrected table is shown below:

TABLE 5. Dimensions, *Zeilleria minima* n. sp.
