

VINICIUS GOMES SAMPAIO & LUIZ ALEXANDRE CAMPOS (2025) Review of *Placocoris* Mayr, 1864 (Hemiptera: Pentatomidae: Discocephalinae: Ochlerini). *Zootaxa*, 5701 (5): 531–546.

The monograph by Castro-Huertas *et al.* (2022), which presents the first and only record of *Placocoris* Mayr for Colombia, was not cited in the synonym list or in the references, despite our use of that record in the map and its mention in the distribution section. Castro-Huertas *et al.* (2022) refer only to *Placocoris* sp., but we tentatively identify the species as *P. viridis* Mayr, 1864, based on their Figure 101. We update the genus synonym list here.
