Hashizume & Poggi (2025) removed *Homalota denticulata* Cameron, 1920 from synonymy of *Stenomastax cribrum* (Fauvel, 1878). However, *Homalota denticulata* Cameron, 1920 is a junior primary homonym of *Homalota denticulata* Motschulsky, 1858 (currently treated as a junior synonym of *Atheta (Tetropla) nigritula* (Gravenhorst, 1802)). Therefore, in accordance with Article 60 of the International Code of Zoological Nomenclature (ICZN, 1999), the replacement name *Stenomastax newtoni* Hashizume & Poggi, **nom. nov.**, is proposed.

Tribe Homalotini Heer, 1839

Subtribe Homalotina Heer, 1839

Genus *Stenomastax* Cameron, 1933

Stenomastax newtoni Hashizume & Poggi, **nom. nov.**
